

I Am

I am lonely but happy
I wonder about my future
I hear our song dull the time
I see your soul
I want peace to me and to the word
I pretend not to cry
I feel so many things
I touch your hand
I worry bout you
I cry when I can't pretend anymore
I am lonely but happy
I understand you
I say you will be ok
I dream about this
I try to fix you
I hope lights will guide you
I amlonelybuthappy
